SUMMARY

Competent electronics engineer with a background in both software and hardware development. Capable in many programming languages, such as Python, JavaScript (JS), C, and C++. Also, have a solid foundation in web development technologies, such as HTML, CSS, and React JS. Aware of Git version control and collaborative working on GitHub. Demonstrates strong hardware skills, particularly in the fields of Arduino and Raspberry Pi development.

EDUCATION

Engineering in Electronics, Communication and Information 2021 - Present

[Advanced College of Engineering and Management](#)

Class 12 2018 - 2019
[Prasadi Academy](#)

Class 10 2014 - 2017
[Swastik Pathshala](#)

PROJECT

Ultrasonic Blindstick with GSM and GPS tracking

Short Summary

- I developed smart stick that assists blind people by providing five crucial features: Obstacle Detection, Water Sensing, tracking, sending messages and Smart Decision Making using Arduino Nano as a Microcontroller

SKILLS

Programming Languages

C · C++ · HTML · CSS · JS · Python(Basics) · Git · Github · React JS · MySQL

Hardware

Skilled in Arduino development · Familiarity with Raspberry Pi

STRENGTHS

- 💎 Quick Learner
- 💎 Teamwork and Collaboration

LANGUAGES

English Intermediate

Nepali Proficient

PASSIONS

- ✓ Interest in Electronics
- ✓ Interest in Coding
- ✓ Career Aspiration
